Job Objective

I'm a recent Computer Science graduate with a strong emphasis on UI/UX design and a solid background in front-end development. I'm skilled in designing intuitive, user-centered experiences for both web and mobile platforms and eager to contribute to a forward-thinking software company where I can apply my design expertise and technical foundation to create engaging, impactful digital products.

Experience

Python instructor – Techventure Academy　　　　　　　　　　　　　*Sep 2023 – July 2024*
- Teaching Python basics, Data structures, OOP, HTML and CSS to kids 10-18 years old.

Bachelor of Computer and Information Science (IS Department), Ain Shams University, Cairo, (2020-2024).

Projects

- **My Portfolio** (Website) Figma, ReactJS

  -A fully custom-designed and developed personal portfolio website that showcases my skills as a UI/UX Designer and Front-End Developer.

- **Broskies-yearbook** (Website) Figma, ReactJS

  -A documentation yearbook for a few friends thorough their college life.

- **SecOne4all** (Website) Figma, HTML, CSS, JS and flask

  -A website for anyone who needs to learn hacking or needs hacking services.

- **Group orders** (Website) Figma, ReactJS

  -A user-friendly platform for easily splitting and calculating food prices for group orders, including taxes, ensuring transparent and hassle-free shared expenses.

- **Onerhythm Dashboards** Figma

  -Designed a modern, sleek dashboard for a Saudi-based startup, focusing on intuitive UX and real-time analytics.

- **Ai Startup Landing Page** Figma

  -Designed dark-themed, responsive landing page designed for an AI startup. The page features a modern and sleek aesthetic with a focus on showcasing the power and potential of AI technology.

- **Wholesale Supply Mobile App** Figma

  -Designed a complete mobile application from scratch for Al-Ahly Momkn, enabling users to browse and interact with various wholesalers, compare products, and place orders seamlessly through a user-friendly interface.

- **HawkEye AI Tool website** Figma

  -Designed a website for the commercial team at Solutions by STC to showcase and support their AI powered proposal generation tool.
