Egypt, Cairo | P: +20 1149240296 | [omaryassen99@outlook.com](mailto:omaryassen99@outlook.com) | [Portfolio](#) | [Dribbble](#)

## Job Objective

---

Product Designer with 2 years of experience designing intuitive, user-centered digital products across web and mobile platforms. Experienced in end-to-end product design, from research and wireframing to high-fidelity interfaces and design systems, while collaborating closely with cross-functional teams to deliver scalable, impactful user experiences. Backed by a strong foundation in front-end development, enabling seamless collaboration between design and engineering.

## Experience

---

### Product Designer – YOUXEL Technology

*Jul 2025 – Present*

- Sole Product Designer, leading the design of **TORUK** from its early stages, creating dashboards, workflow builder features, and core product experiences.
- Collaborate closely with engineers and occasionally contribute to front-end implementation to ensure high-quality, consistent user experiences.

### UI/UX Designer – Giza Systems

*Sep 2024 – Feb 2025*

- I worked on the Aoun SaaS platform, where I redesigned the Admin Portal to improve usability and fix UX issues, and designed the Applicant Portal using the DGA Design System.

### UI/UX Designer (Freelance) – OneRythm

*Mar 2025 – May 2025*

- Designed modern, sleek dashboards focused on intuitive user experiences and real-time analytics for a Saudi-based startup.

### UI/UX Designer (Freelance) – HUR Engineering

*Jan 2026 – Feb 2026*

- Designed the company's website, creating a modern, professional experience that showcases its engineering services, multidisciplinary expertise, and integrated project management approach.

### Coding instructor – Techventure Academy

*Sep 2023 – July 2024*

- Teaching Python basics, Data structures, OOP, HTML and CSS to kids 10-18 years old.

### Coding & UI/UX instructor – iSchool

*June 2024 – Sep 2024*

- Teaching Coding and UI/UX to kids 10-12 years old.

## EDUCATION

---

Bachelor of Computer and Information Science (IS Department), Ain Shams University, Cairo, (2020-2024).

## Projects

---

### • My Portfolio

A fully custom-designed and developed personal portfolio website showcases my skills as a UI/UX Designer and Front-End Developer.

### • TORUK – AI Employees management system

A B2B SaaS platform for building, deploying, and managing AI agents, workflows, and integrations in a unified workspace.

- **WorkHub Egypt** Figma

Designed a job search platform in Figma that aggregates listings from LinkedIn, Wuzzuf, and company career pages. Focused on a seamless, no-login experience with clear source tagging, using the DGA Design System for consistency.

- **Onerhythm Dashboards**

Designed a modern, sleek dashboard for a Saudi-based startup, focusing on intuitive UX and real-time analytics.

- **Wholesale Supply Mobile App**

Designed a complete mobile application from scratch for Al-Ahly Momkn, enabling users to browse and interact with various wholesalers, compare products, and place orders seamlessly through a user-friendly interface.

- **HawkEye AI Tool website**

Designed a website for the commercial team at Solutions by STC to showcase and support their AI powered proposal generation tool.

- **Stackaroo Landing Page**

Designed a vibrant, cartoon-themed landing page for an infrastructure automation platform, emphasizing a user-friendly and approachable brand identity.
